Do you use opioids/heroin or know somebody that does?

Attend a Narcan training and receive a free Narcan kit, which includes two doses of Narcan. Learn how to respond and safely use Narcan, a medication that can reverse an opioid overdose that may occur if using heroin or prescription pain medication.

RSVP is not required. The Narcan training is a non-judgmental environment where community members can remain anonymous. For more information and to RSVP if desired, please call the Fond du Lac County Health Department at (920) 929-3085.
